Another technique is to test out prices by creating a number of duplicate gross sales pages with totally different costs on each page. Make certain your gross sales copy is strictly the same on

each page, and includes your selling-handle sentence. Then figure out for every web page the conversion ratio between visitors to your site and gross sales of your book. This will let you know what your optimum value is.

In the end, when you've written a guide that solves a drawback or presents a brand new method, your book will herald both site visitors and profits.
