One other technique is to check out prices by creating a variety of duplicate gross sales pages with completely different costs on each page. Ensure your sales copy is precisely the same on each page, and consists of your selling-handle sentence. Then figure out for every page the conversion ratio between guests to your web site and sales of your book. This can let you know what your optimum value is.

In the end, if you happen to've written a e-book that solves a problem or presents a new method, your e book will herald both site visitors and profits.
