An efficient approach for figuring out a price is to ship out a survey to your present customers. If these clients have already purchased an ebook from you, ask for his or her opinion when it comes to price. Do that by creating a sales page for the new guide, but do not embody a value on that page. Instead, add various hyperlinks to survey questions that ask pointed questions to aid you in assigning a value to your ebook.

One other technique is to check out costs by creating a variety of duplicate sales pages with completely different prices on each page. Be sure that your gross sales copy is exactly the identical on each page, and contains your selling-handle sentence. Then work out for every page the conversion ratio between guests to your web site and gross sales of your book. This may let you know what your optimum price is.

Finally, for those who've written a e book that solves a problem or presents a new technique, your e book will herald both site visitors and profits. So be sure to write that selling-handle sentence that sums up what problem your guide solves and what the advantages of your 2423 e-book will likely be to the shoppers who purchase it.
