An effective approach for figuring out a price is to send out a survey to your present customers. If these prospects have already bought an ebook from you, ask for their opinion when it comes to price. Do that by making a gross sales page for the brand new e-book, but do not embody a price on that page. Instead, add a variety of hyperlinks to survey questions that ask pointed questions to aid you in assigning a worth to your ebook.

Another strategy is to check out prices by creating a variety of duplicate gross sales pages with completely different prices on every page. Ensure that your sales copy is exactly the identical on

every web page, and includes your promoting-handle sentence. Then determine for every page the conversion ratio between visitors to your web site and sales of your book. This will inform you what your optimum price is.

Finally, should you've written a e book that solves a problem or presents a brand new technique, your guide will bring in each site visitors and profits. So be sure you write that selling-deal with sentence that sums up what problem your book solves and what the advantages of your 481 book will likely be to the purchasers who buy it.
