In addition to promoting your books assiduously on-line, there are several other strategies that may help you sell extra books.

One is to give one thing away without spending a dime along with your guide, such as a useful bonus item. Or bundle a number of ebooks below one worth, which lowers the price for every e book in the event that they were sold separately.

An efficient approach for figuring out a value is to ship out a survey to your present customers. If these prospects have already bought an book from you, ask for his or her opinion in terms of price. Do this by creating a gross sales page for the brand new book, however don't embody a price on that page. As an alternative, add a variety of links to survey questions that ask pointed questions to aid you in assigning a price to your ebook.

Another technique is to test out prices by making a variety of duplicate gross sales pages with totally different prices on every page. Be certain your sales copy is exactly the same on each page,

and contains your selling-handle sentence. Then determine for every page the conversion ratio between visitors to your website and gross sales of your book. This may let you know what your optimum worth is.

In the end, in case you've written a guide that solves a drawback or presents a new approach, your e-book will bring in both visitors and profits. So be sure you write that selling-deal with sentence that sums up what problem your guide solves and what the advantages of your e book can be to the customers who buy it. And then watch your market come to you!
