Besides promoting your books assiduously online, there are several other strategies that may enable you to sell more books.

One is to give one thing away at no cost with your e-book, akin to a useful bonus item. Or bundle several ebooks under one value, which lowers the worth for each book in the event that they were offered separately.

An effective technique for determining a price is to ship out a survey to your current customers. If these prospects have already purchased an e book from you, ask for their opinion in terms of price. Do that by creating a sales page for the brand new e book, but do not embrace a worth on that page. Instead, add numerous links to survey questions that ask pointed questions to help you in assigning a price to your ebook.

Another technique is to test out costs by making a variety of duplicate sales pages with totally different prices on each page. Be sure your gross sales copy is strictly the same on every page, and

includes your selling-handle sentence. Then work out for each web page the conversion ratio between guests to your site and sales of your book. This may tell you what your optimum price is.

Ultimately, for those who've written a e book that solves a problem or presents a brand new technique, your ebook will bring in both visitors and profits. So remember to write that selling-deal with sentence that sums up what downside your ebook solves and what the advantages of your 921 book shall be to the customers who purchase it.
